

Jeewant Choudhry

M.S. Computer Engineering • Data Analyst

Blacksburg, VA | (+1) 732-698-3755 | jeewant5@vt.edu | github.com/Jeewant05 | linkedin.com/in/jeewantc/

Education

Virginia Polytechnic Institute and State University (Virginia Tech)

Blacksburg, Virginia

M.S. IN COMPUTER ENGINEERING (Minor: Software and Machine Intelligence) • GPA: 3.90/4.00

Aug. 2025 - Dec. 2026

• **Relevant Coursework:** Machine Learning, Applications of Machine Learning, Quantum Engineering, Network Security, Cyber Physical Systems

Manipal Institute of Technology, Manipal

Karnataka, India

B.TECH. IN ELECTRONICS AND INSTRUMENTATION ENGINEERING

2021 - 2025

Work Experience

VIRGINIA TECH

Blacksburg, Virginia

TEACHING ASSISTANT (SPRING'26) | GRADER (FALL'25)

Sep. 2025 - Present

- Coordinated instructional support across **3 graduate courses serving 160+ students**, holding weekly office hours, resolving queries, and developing a **most useful concepts checklist** for analytics, finance, and engineering topics.
- Tracked student performance in **Principles of Finance** and **Business Analytics** courses using **Excel-based monitoring**, identifying underperforming students and providing targeted support.
- Facilitated assignment tracking and faculty communication to keep course operations organized and aligned with course goals.

GOLDMAN SACHS

Bengaluru, India

DATA ANALYST, ASSET AND WEALTH MANAGEMENT DIVISION

Jan. 2025 - Aug. 2025

- Automated **Jira project reporting** through an Alteryx workflow that tracked ticket updates, project completion, and overdue tasks, improving documentation completion rates by **30%** across more than **15 projects**.
- Executed **User Acceptance Tests (UATs)** across Private Wealth Management systems using SQL, structured test cases, business datasets, and defect logs to identify **10+ issues** before production and support release readiness for critical workflows.
- Collaborated with change management, monitoring and testing, product development, and strategies teams to secure **3 additional business analytics projects** and expand cross-divisional reporting support.
- Authored **7+ Confluence pages** covering workflows, KPIs, and reporting practices, helping organize internal processes, improve documentation clarity, and reduce ramp-up time for new workstreams.

MANIPAL INSTITUTE OF TECHNOLOGY, MANIPAL

Manipal, India

CAMPUS RECRUITING TEAM HEAD

Nov. 2023 - Oct. 2024

- Facilitated on campus recruitments for **more than 20 companies**, handling both schedule and recruiter updates.
- Managed the campus recruiting team consisting of **200+ students across 18 engineering majors**, using structured tracking to improve coordination, communication, and execution during peak recruiting cycles.

Key Projects

Data Validation and Quality Workflow | Goldman Sachs

ALTERYX DESIGNER • SQL • SNOWFLAKE • DATA VALIDATION • WORKFLOW AUTOMATION • JIRA • CONFLUENCE

- Automated **10,000+ data validation checks** in Alteryx across 11 investor data categories, building a repeatable quality-control workflow that improved reporting accuracy by 50%.
- Built Alteryx workflows for lost mandates and Jira project reporting, using rule-based exception outputs, ticket tracking, and **automated email distribution** to deliver insights to **1,000+ investors and internal teams** while improving documentation.

Missed Mandate Analytics Dashboard | Goldman Sachs

TABLEAU • ALTERYX DESIGNER • SQL • SNOWFLAKE • KPI REPORTING • DASHBOARD DEVELOPMENT • JIRA • SLACK

- Designed an interactive **Tableau dashboard** for missed mandate reporting, visualizing dollar-value trends across asset classes and tracking 8+ key indicators with filters across 11 data categories for recurring business review.
- Enabled **5 teams** to evaluate consultant changes and strategy redistribution, with the dashboard supporting decisions tied to nearly **\$400 million in assets**, reducing lost business opportunities by **10-15%**, and saving about **2 months of analysis time**.

Electric Vehicle Feasibility Model | Indian Institute of Technology, Guwahati

EXCEL • PYTHON • PANDAS • NUMPY • MATPLOTLIB • KPI REPORTING • MARKET SIZING • UNIT ECONOMICS • PRICING ANALYSIS

- Built and validated a **market-sizing and unit-economics model** for an electric vehicle venture on campus using Python, Excel, pricing analysis, and KPI dashboards to drive around **8-12% margin lift** and nearly **20% faster turnaround**.

Skills

Languages

Python, SQL, R, Bash

Analytics & BI

Alteryx Designer, Tableau, Power BI, Excel, Pandas, NumPy, scikit-learn, Matplotlib, KPI Reporting

Data & Workflow

User Acceptance Testing, ETL, Workflow Automation, Data Validation

Tools

Jira, Confluence, Git, Snowflake, Slack

Certifications

• Alteryx Designer Core Certification, **Alteryx**

Jan. 2025

• Minor Specialization in **Fundamentals of Programming in Python** by Rice University, USA

May 2024
